

# Cookies Policy

Our website uses cookies to ensure the effective operation and convenience for our Users. We classify cookies into several categories:

## 1. Strictly Necessary Cookies

These cookies are essential for the proper functioning of the website and for providing the services requested by the User (for example, to maintain the session after logging into an account). Without these cookies, certain parts of the Service may not operate correctly. Their use is based on our legitimate interest in ensuring the Service's proper operation; no User consent is required.

## 2. Analytical Cookies

These cookies collect statistical information regarding how Users interact with the Service (such as page visits, referral sources, and on-site behavior). The data obtained help us to improve content and navigation. We employ privacy-respecting analytical tools (for example, IP address anonymization where applicable). Such cookies are used on the basis of our legitimate interest in understanding and optimizing Service usage. In jurisdictions where consent is required for analytical cookies, we will request it upon a User's first visit.

## 3. Functional Cookies

These cookies help remember the User's choices (such as language settings, regional preferences, or other personalized options) to provide a more customized experience. These cookies may be set by us or by third-party service providers on the website. Their processing is based either on our legitimate interest in enhancing the Service's convenience or on the User's consent, where required.

## 4. Marketing Cookies

Currently, we do not display third-party advertising on the Platform. Should we, in the future, use cookies for advertising purposes (for example, to display targeted advertisements from third-party platforms or to track the effectiveness of our own advertising campaigns), such cookies will only be used upon obtaining the User's explicit consent.

The User may, at any time, configure their browser to reject some or all cookies, or to request confirmation before a cookie is stored. The User may also delete stored cookies at any time via their browser settings. Please note that disabling certain categories of cookies (such as strictly necessary cookies) may affect the Service's functionality. For further information about our use of cookies, please contact us using the contact details provided on the website.

The Platform reserves the right to update and supplement this Cookies Policy. Changes may arise, for example, from the introduction of new features or services, alterations in legal requirements, or updates to our data-processing practices. In the event of significant changes, we will notify Users by prominently posting a notice on the website. The revised Policy shall become effective upon publication unless stated otherwise. We recommend that you review this Policy periodically to stay informed of our current practices and your rights.
